

## USBShare™ EB-214A --- 4 Port USB 2.0 Storage & Print Server

EB-214A Storage and Printer Server lets you easily expand and share USB based storage and printing devices over an Ethernet network at home and in a small office. This device provides 4 USB ports that can connect storage or printing devices to an Ethernet. Connect USB disk drives or plug in portable media to share music, videos, and information among family or workgroups.

Installation is fast and easy, in most cases without needing to understand or remember IP addresses, workgroup names, or complex configuration parameters. A built-in software utility assists you in configuring or reconfiguring the unit without losing any user or sharing information.

### **Advantages**

- Network up to four USB storage devices and printers
- Eliminate the need for high cost servers
- Share USB external hard drives, printers, MP3 players, and flash drives in the office or at home
- Plug & Play

### **Main features**

- 4 USB ports for USB storage devices or printers
- USB 2.0 compatible (backward compatible with USB 1.1)
- Support FTP and SMB protocols
- Support user and password protection for each port
- Multiple user configuration
- Supports 10Base-T and 100Base-T network

### **Technical Specifications**

- Port Connectors 4 USB
- System Requirements Windows® ME, 2000, XP
  - IEEE 802.3 10Base-T and 100Base-T network
  - Internet Explorer 5.0 or above
  - CD-ROM drive (for software and utility installation)
- In the Box EB-214A 4 Port USB 2.0 storage & print server
  - Power adapter
  - RJ-45 cable
  - Software and utility CD
- Power 100V~240V 50/60Hz 0.5A power adapter 5VDC/2A output
- Regulatory Compliances CE, FCC-B
- Dimension (EB-214A) (L x W x H in mm): 130 x 77 x 24; 5" x 3" x 1"
- Weight (EB-214A & P. adapter) 0.35Kg; 12.5oz
- Operating temperature 0°C ~ 55°C
- Humidity 10% ~90% RH (Non-condensing)
- Storage temperature -20°C ~ 90°C
